Infection Control Program

Consistent with the Public Employee Safety Health Act, Rīghknow and Occupational Safety and Health Administration compliance programs, the policy of the Newburgh Enlarged City School District shall be to furnish its employees with employment and a place of employment which are free from recognized hazards that are likely to cause death or serious physical harm. Consistent with this intent, the District shall maintain ærction control program.

- 1. The Superintendent shall develop and all school personnel shall comply with guidelines and routine sanitary hygiene procedures for dealing with all spills of blood and other bodily fluids in or on school premises and grounds and choolsponsored events (Universal precautions). All school personnel will be notified regarding the location of necessary equipment and materials, as well as the routine sanitary hygiene procedures to be utilized. The Superintendent should consulth write School Physician and public health officials, as appropriate, for the most current methods and information pertaining to such procedures.
- 2. All school nurses and other health care professionals employed by the School District shall be offered Hepitaits B series vaccinations, consistent with standard medical practice, at no cost. The Superintendent should consult with the School Physician and public health officials, as appropriate, regarding such vaccinations.
- 3. All school nurses and other health care professionals employed by the School District
